Subject: Verification of ATR.

As you are aware, when the ATR of a road work is not found conclusive, NRRDA deputed NQM for ground verification of the action taken/reported by the PIU. For this purpose, NRRDA makes a specific written request to the NQM concerned and also to the SQC of the concerned State to make available all relevant documents.

2. It has been observed that a few NQMs during their deployment to the districts for regular inspections, on the request of the PIU concerned, they verify ATR of road work which either has not been accepted by NRRDA or are pending for ground verification.

3. This is not the standard producer to be adopted for ATR verification. Therefore, all NQMs are advised not to go for ground verification of the action taken reports, unless specifically asked to do so by NRRDA, through a written communication.

With regards,

Yours sincerely,
